Wave Seven Interview Questionnaire – 2014-2015

## 1 HOUSEHOLD DEMOGRAPHICS MODULE (HD)

### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

#### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

#### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

#### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

#### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

#### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## HOUSEHOLD DEMOGRAPHICS MODULE (HD)

*IF (interviewing at new household)DHSameH is prefilled 'No' [HHNo >1, DHSameH:=2]*

ELSE

### **DHSAMEH \***

ASK or CODE: Are you living at the same address as when we last interviewed you [^date of last interview]?

- 1 Yes
- 2 No

END OF FILTER

### **DHINT \*@**

(As you know) this is a study about the health and lifestyles of people aged 50 and over. [^BLANK/During the interview, some of the questions you are asked will be new to you and others will check or update information that we asked about last time. This is because we are interested in understanding what has stayed the same and what has changed.]

I would like to begin by checking our details about who lives in this household.

INTERVIEWER: Enter 1 to continue.

Range: 1..1

*IF Number of people who have moved out in previous waves > 0 [NOFMov > 0]*

### **DHBACK \*@**

Before beginning the interview, I just need to check whether there have been changes in who lives in this household.

Our records show that the following people have previously lived in this household.

Have any of them returned to the household? Do any of them live here now?

CODE ALL THAY APPLY.

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## Wave Seventh Interview Questionnaire – 2014 to 2015

### 3 HEALTH MODULE (HE)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## Wave Seven Interview Questionnaire – 2014 to 2015

### 4 SOCIAL PARTICIPATION MODULE (SP)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## Wave Seven Interview Questionnaire – 2014 to 2015

### 5 WORK AND PENSIONS MODULE (WP)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## Wave Seven Interview Questionnaire – 2014 to 2015

### 6 INCOME AND ASSETS MODULE (IA)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## INCOME AND ASSETS MODULE (IA)

### IAINTRO\*

We are interested in how people are managing financially these days. Some people's income varies over time and so in order to clearly understand how people are managing financially, we need to consider their situation in the last year rather than just over the last month.

[^BLANK / Even though [^partner's name] is not living here at the moment, we are still interested in any income that [^he / she] may receive or income that is paid to [^you / [^name]] on their behalf. Please include any income that is paid directly to social services or to the home they are staying in.]

The next questions are about types of income [^you / [^name]] [^BLANK / and [^your / his / her] [^husband / wife / partner]] may [^receive / have received]. We may have asked [^you / [^name]] [^BLANK / or [^your / his / her] [^husband / wife / partner]] some of the details earlier but it is important for us to check that we understand [^your / [^name's]] situation correctly.

## Wave Seven Interview Questionnaire – 2014 to 2015

### 7 HOUSING AND CONSUMPTION MODULE (HO)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

Wave Seven Interview Questionnaire – 2014 to 2015

## 8 COGNITIVE FUNCTION MODULE (CF)

### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

#### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

#### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

#### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

#### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

#### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## **COGNITIVE FUNCTION MODULE (CF)**

### **CFINTA @**

In the next section of the interview, we will do some memory and concentration tasks and I will ask about your expectations for the future and how you feel now.

01 Press <1> and <Enter> to continue.

### **CFMETM**

Part of this study is concerned with people's memory, and ability to think about things.

First, how would you rate your memory at the present time?

Would you say it is ...READ OUT...

- 1 excellent,
- 2 very good,
- 3 good,
- 4 fair,
- 5 or, poor?

### **CFMETMT**

Compared to two years ago, would you say your memory is...READ OUT...

- 1 better now,
- 2 about the same,
- 3 or worse now than it was then?

### **CFMAP**

How would you rate your other mental abilities such as thinking clearly and solving problems at the present time?

Would you say they are ...READ OUT...

- 1 excellent,
- 2 very good,
- 3 good,
- 4 fair,
- 5 or, poor?

### **CFMATY**

Compared to two years ago, would you say your other mental abilities are ...READ OUT...

- 1 better now,
- 2 about the same,
- 3 or worse now than they were then?

### **CFINT @**

Now we will do the memory and concentration tasks.

Some of them may seem rather easy but others are more difficult so please listen carefully.

The tasks are designed so no-one gets the highest score possible. Please just do the best you can on all of them.

INTERVIEWER: Before starting the tests, make sure respondent has glasses etc if needed.

Press <1> and <Enter> to continue.

Range:1..1

### **CFDATD**

Please tell me today's date.

INTERVIEWER: Code whether the day of month ([^today's date]) is given correctly.

1 Day of month given correctly

2 Day of month given incorrectly or doesn't know day

### **CFDATM**

INTERVIEWER: Code whether the month ([^today's date]) is given correctly.

1 Month given correctly

2 Month given incorrectly/doesn't know month

### **CFDATY**

INTERVIEWER: Code whether the year ([^today's date]) is given correctly.

1 Year given correctly

2 Year given incorrectly/doesn't know day

### **CFDAY**

And please tell me what day of the week it is today?

CORRECT ANSWER: [^today's day]

1 day of week given correctly

2 day of week given incorrectly/doesn't know day

### **[CFPROM, CF PROMO – removed]**

### **CFLSINT @**

For the next task the computer will 'read' a list of words which I will ask you to recall.

First I'd like to check that you will be able to hear the computer voice - please listen to this short message.

INTERVIEWER: Press <1> and <Enter> to activate the test message.

### **CFTEST**

INTERVIEWER: If the respondent cannot hear properly, adjust the volume on the laptop, then go back to the previous question and press <Enter> to play the test message again.

INTERVIEWER: If the respondent still cannot hear properly, code that you will read out the list yourself.

1 List read out by computer

2 List read out by interviewer

### **CFWRDS**

*[Fed forward variable: word list used for this respondent.]*

*[Note for users - Respondents were read out one of four lists of words. They were given a different list to the one they were given at the last interview and each respondent in a household was given a different list. Please look at the cognitive function booklet for the four lists of words which were used.]*

*IF how list read out = read by interviewer [CfTest = 2]*

### **CFLISST @**

I will now read a set of 10 words. I would like you to recall as many as you can.

We have purposely made the list long so it will be difficult for anyone to recall all the words.

Most people recall just a few.

Please listen carefully to the set of words as they cannot be repeated. When I have finished, I will ask you to recall aloud as many of the words as you can, in any order. Is this clear?

INTERVIEWER: If no, explain further.

Read out word list below at a slow steady rate approximately one word every 2 seconds.

[^list of words]

After word list has been read out press <1> and <Enter>.

## EXPCK

We want to find out whether people know about how paying for care works **at the moment**. It's a subject a lot of people don't know much about, so don't worry if you are not sure about some of the questions. Local Authorities provide funding for care. Do you think they pay for care for **everyone** or do you think they pay for care for **some people** based on each person's ability to pay?

INTERVIEWER: These questions are about respondents' knowledge, NOT their opinion of how things should be.

INTERVIEWER: If respondents mention 'means testing' code answer option 2.

- 1 They pay for care for everyone
- 2 They pay for care for some people (based on person's ability to pay)

### EXPCLM

Many people do have to pay something towards the care they receive in residential homes or in their own home. **At the moment** is there any limit on the amount of money that people have to pay for care and support over their lifetime?

- 1 Yes
- 2 No

### EXPCHR

In the next few years the government will be introducing a new policy to limit the amount people will have to pay for care and support over their lifetime.

Before today had you heard about this policy?

INTERVIEWER: If yes prompt 'Do you know some of the details of this policy'. If yes to **this prompt** code as 1 but if respondent doesn't know the details code as 2.

## 10 EFFORT AND REWARD (OF VOLUNTEERING AND CARING) MODULE (ER)

### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

#### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

#### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

#### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

#### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

#### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

## Wave Seven Interview Questionnaire – 2014 to 2015

### 11 PSYCHOSOCIAL MODULE (PS)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

Press 1 and <Enter> to continue

### HeHInt

We would like to measure your hearing. This is a hearing screening test which indicates how well you can hear. It is not an audiometric assessment (a medical hearing test). On its own this test can't tell me if there are any problems with your hearing so if you have any concerns about your hearing you should talk to your GP.  
Press 1 and <Enter> to continue

### HeHCI

Before I explain more about the test, I need to make sure it is safe for you to do the test.  
Do you have a cochlear implant?

### HeHEI

Do you have an ear infection at the moment?  
1 Yes  
2 No

*If has a cochlear implant or has an ear infection

### HeRAid

INTERVIEWER: The respondent has ^HrAidTxt1 [hearing aids you will need to ask them to remove them/a hearing aid you will need to ask them to remove it] before the test.  
Make sure respondent is given all instructions about the test before you ask the respondent to remove their ^HrAidTxt2 [hearing aids/hearing aid].

CODE 1 TO CONTINUE

Press 1 and <Enter> to continue

### **HeHSf**

To do the test you will need to listen to sounds at different frequency levels (tones) that are produced by a hearing screening device. I will hold the device to your ear and you will tell me whether you have heard a noise by raising your finger. To get an accurate test the device will be used twice on each ear.

INTERVIEWER: For the test to work properly the device needs to make contact properly with the respondent's ear.

INTERVIEWER: Explain if appropriate that the respondent will need to remove hearing aid/hearing aids, spectacles/glasses, earrings and hair bands that might get in the way of the hearing device.

INTERVIEWER: Explain that the room must be as quiet as possible for the test to work. Ask the respondent to turn off radio/television due to problems this might cause with the accuracy of the test due to background noise.

INTERVIEWER: Does the respondent agree to take the hearing test? If respondent is unhappy about the test, refuses to remove items or turn off radio/television please record 'no, refuses cannot continue with test'.

INTERVIEWER: WRITE the respondent's serial number on the hearing test sheet. Then note on the hearing test sheet how many tones the respondent indicates they can hear for each sequence and for each ear.

I will now place the device on your left ear. Please let me know if you find this uncomfortable. I will say 'ready, begin' just before I start the device, then you will listen for sounds and let me know when you hear the sounds by raising your finger.

### 13 TIMED WALK MODULE (MM)

#### IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

##### Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

##### Routing

<> - This annotation is used to indicate 'not equals to'.

An asterisk(\*) after a question name indicates that it is asked of proxy and non-proxy respondents; two asterisks indicate a proxy only question, and no asterisks indicates non-proxy only (that the question is only asked of the named respondent).

##### Variables omitted from archived data

@ - This annotation is used to indicate that a variable has not been archived (with this name). If the data for such a variable has been archived under a different name this will be indicated. Some variables have been omitted altogether from the archived data (e.g. text variables or "press 1 and continue" variables) – see User Guide for more information.

##### Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. The checks are numbered within each module of the questionnaire (e.g. "[CHECK ER2]") and the details of the checks are given at the end of document.

##### Queries

Please contact the data manager ([ELSAdata@natcen.ac.uk](mailto:ELSAdata@natcen.ac.uk)) if you have any queries about the questionnaire.

**SCLDDR**

Think of this ladder as representing where people stand in our society. At the top of the ladder are the people who are the best off – those who have the most money, most education and best jobs. At the bottom are the people who are the worst off – who have the least money, least education and the worst jobs or no jobs. The higher up you are on this ladder, the closer you are to people at the very top and the lower you are, the closer you are to people at the very bottom. Please mark a cross on the rung on the ladder where you would place yourself.

Range: 0..10

**Note: Six/seven point end labelled scale questions**

Part-way through Wave 7 fieldwork, the answer scale of the following questions using a numeric answer scale was noted to be incorrectly set out as six-point scale 1-6, as opposed to the intended seven point scale 0-6. A new version of the self-completion was issued with the corrected scale. Therefore, the dataset for wave 7 includes two versions of each of the affected variables, with the variable name suffix indicating the self-completion version completed (\_v1: Orange questionnaire, scale 1-6; \_v2: Green questionnaire, scale 0-6). Additionally, the variable SCVER provides information on which version of the self-completion questionnaire was completed by each respondent.

### **CAPI introduction to self completion**

In a concurrent interview respondents take it in turns to complete self completion questionnaires while the other person does the private parts of the CAPI interview. In a single person household, the self completion questionnaires are just introduced at the end and the respondent can choose whether or not to complete there and then.

For Wave 7 people in existing sample households may have been given one self completion in advance of the interview. This did not happen in refreshment sample households.

*If existing sample*

Think of this ladder as representing where people stand in our society. At the top of the ladder are the people who are the best off – those who have the most money, most education and best jobs. At the bottom are the people who are the worst off – who have the least money, least education, and the worst jobs or no jobs. The higher up you are on this ladder, the closer you are to the people at the very top and the lower you are, the closer you are to the people at the very bottom.

Please mark a cross on the **rung** on the ladder where you would place yourself.

At what age would you like to retire?

Write in years

I have already retired  <sub>1</sub>

**32** Think of this ladder as representing where people stand in our society. At the top of the ladder are the people who are the best off – those who have the most money, most education and best jobs. At the bottom are the people who are the worst off – who have the least money, least education, and the worst jobs or no jobs. The higher up you are on this ladder, the closer you are to the people at the very top and the lower you are, the closer you are to the people at the very bottom.

Please mark a cross on the **rung** on the ladder where you would place yourself.

**33** The next few questions are about how you feel about your age and experience of growing older. How old do you feel that you are?
